AUTHOR INDEX

A

Aikin, Andrea R.
aquifer storage recovery catches on 4[11],12
Albert, Richard C.
fish health in Delaware Estuary 4[4],18
Albertson, Orris E.
evaluating scraper design 4[1],52
Albright, Archie
automated biosolids composting 4[5],28
Anderson, Gregory A.
denitrification to control pH 4[2],62
Anderson, Robert J.
model predicts TCE soil contamination 4[11],33
Applegate, Glenn
advanced treatment, nutrient removal 4[9],22
Asano, Takashi
water reuse requirements in California 4[2],36

B

Bagwell, Steve
proposed anti-recession measures 4[6],34
Balog, George C.
plant upgrade improves water quality 4[12],32
Bastian, Robert
updated reuse guidelines 4[8],19
Battenfield, Teresa
collection system odor control 4[1],7
Becker, Peg
wastewater treatment odor control 4[1],9
Beetschen, Lee J.
setting industrial ammonia standards 4[11],62
Benson, Robert B.
stormwater utility user fees 4[9],59
Bible, David W.
trenchless sewer rehabilitation 4[5],44
Bicknell, Daniel J.
Great Lakes toxics ranking 4[7],50
Bills, Russ
anaerobic filter for industrial wastes 4[6],66
Bishop, Walter J.
air emission control technology 4[3],50
Blake, David
examining zero discharge 4[10],58
Block, Tim
plant upgrade preserves environment 4[9],15
Blondeau, Francois
compact wastewater treatment 4[8],o5
Boling, Scott D.
metals removal from acid mine drainage 4[7],26
Bonnin, Dagmar
ammonia adsorption by zeolites 4[9],37
Bowers, Keith
software for environmental assessment 4[11],11
Bowlds, Larry S.
ASCE guide for quality construction 4[7],22
PCB bioremediation technique 4[2],32
vitrifying radioactive wastes 4[3],36
Brenniman, Gary R.
model predicts TCE soil contamination 4[11],33
Brewster, Michael D.
removing arsenic from industrial wastewater 4[11],54
Bristol, Charles
computerized stormwater management 4[6],26
Brookins, Douglas
zeolites remove lead 4[5],54
Burke, Mindy
automated infrastructure management system 4[1],13
Burkhead, Carl E.
irrigating with reclaimed water 4[8],38
Burns, Chris L.
industrial wastewater treatment 4[7],32
Butler, William
clean water implementation program 4[5],18

C

Cain, Chris
tanker ballast water emission control 4[2],6
Card, Thomas R.
modeling VOC fate 4[3],40
Carnahan, Robert P.
ammonia adsorption by zeolites 4[9],37
Carter, John L.
anaerobic filter for industrial wastes 4[6],66
Cash, Kent
wetland used for CSO treatment 4[9],39
Cea, Robert
industrial pretreatment data management 4[6],28
Chaney, Rufus L.
regulating biosolids management practices 4[4],36
Clark, James H.
egg-shaped digester design 4[4],42
Clark, Patsy S.
Grand Rapids CSO project 4[3],30
Clark, Sidney E.
egg-shaped digester mixing improvements 4[1],20
Clay, Stephanie G.
industrial respirometry application 4[6],60
Clesceri, Nicholas L.
environmental engineering education in Armenia 4[10],30
Cleveland, Ward
land application in Puerto Rico 4[5],73
Clinger, Robert C.
nutrient removal costs 4[7],67
Cochran, Judith
plant upgrade preserves environment 4[9],15
Collins, Mark A.
stormwater toxics management 4[5],60
Committees
Awards, 1992 winners 4[10],40
Clean Water Act Reauthorization, stormwater 4[9],69
Groundwater, legislation and regulation 4[10],51
Local Arrangements, New Orleans 4[9],56
Compeau, Geoff
TCE bioremediation in groundwater 4[2],48
Compton, Cathy A.
public-private partnerships 4[6],20
Conner, Walter E.
collection system protects wetlands 4[12],25
Connors, Paul
groundwater aeration at Superfund site 4[7],15
Conrad, Laura
hazardous waste cleanup costs controversy 4[5],32
Water Environment Research Foundation 1992 grants 4[9],45
Water Quality 2000 final meeting 4[4],34
Corsi, Richard L.
modeling VOC fate 4[3],40
Cramer, James A.
disinfecting with ultraviolet radiation 4[12],40
Creson, Cheryl F.
reducing toxic pollutants 4[6],45
Crites, Ronald W.

glassmaking process improves pollutant sensors 4[9],37

SUBJECT INDEX

Air pollution and toxics
collection-system odor control 4[1],7
emission control technology 4[3],50
emission evaluation 4[3],46
Finland studies factories 4[12],60
modeling VOC fate 4[3],40
odor control with $FeCl_2$ 4[1],9
plant and composting odor control 4[10],13
tanker ballast water emission control 4[2],6

Audits and investigations
hazardous-waste cleanup costs controversy 4[5],32

Beneficial use
composting 4[9],74
wastes as resources 4[9],77

Bioremediation
potentials and pitfalls 4[2],52
TCE in groundwater 4[2],48

Biosolids
automated biosolids composting 4[5],28
beneficial reuse controversy 4[8],37
biosoids management program 4[5],22
composting household organic wastes 4[12],22
land application in Puerto Rico 4[5],73
land application, Superfund site revegetation 4[7],9
plant and composting odor control 4[10],13

regulating management practices 4[4],36

Business and finance
financing wastewater treatment in Virginia 4[2],29
financing wastewater treatment plants 4[2],67
government promotion of privatization 4[7],35
market trends for water and wastewater equipment 4[1],33
market trends in water and wastewater industry 4[1],30
public-private utility partnerships 4[6],20
reuse financing program 4[8],27

Clean Water Act
EPA 1990 water quality report 4[5],38
Great Lakes management 4[4],54
nonpoint source provisions in CWA rewrite 4[11],37
water quality issues 4[5],32

Coastal and marine pollution
Back River improves 4[12],32
Baltic Sea protection program 4[6],24
East African reef protection 4[5],36
fish health in Delaware Estuary 4[4],18
Guanabara Bay, Brazil, improves 4[12],50
in situ $CaCO_3$ precipitation in a Florida bay 4[2],42
ocean disposal of wastewater solids, alternatives 4[10],18
PCB polluters to fund Santa Monica Bay cleanup 4[4],22
Swedish treatment plant improves discharge 4[12],12
tanker ballast water emission control 4[2],6

Collection systems
CSO control in New Hampshire 4[5],6
citizen participation in sewer project 4[12],30
financing pumping station rehabilitation 4[3],10
odor control 4[1],7
odor control with $FeCl_2$ 4[1],9
sewer rehabilitation algorithm 4[5],47
trenchless sewer rehabilitation 4[5],44

Combined sewer overflow
control in New Hampshire 4[5],6
Grand Rapids project 4[3],30
permitting legal issues 4[2],57
public education 4[3],30
treatment using wetlands 4[9],39

Committee work
Awards, 1992 winners 4[10],40
Clean Water Act Reauthorization, stormwater 4[9],69
Groundwater, legislation and regulation 4[10],51
Local Arrangements, New Orleans 4[9],56

Conservation
aquifer storage recovery catches on 4[11],12
Canadian policy on wetlands 4[11],30
EPA position on water conservation 4[9],34
fish lifts preserve spawning grounds 4[9],40
Florida river restoration 4[7],18
pipeline protects wetland and wildlife habitats 4[12],25

Database and information
EPA hazardous waste treatment methods 4[4],33
Superfund site cleanups 4[4],28
USGS office for water data 4[3],18

Disinfection
Using ultraviolet radiation 4[12],40

Ecology
aquatic ecosystems restoration 4[7],35
biological marshes treat wastewater 4[9],71
Canada's Green Plan anniversary 4[2],26
East African marine ecosystems 4[5],36
fish health in Delaware Estuary 4[4],18
fish lifts preserve spawning grounds 4[9],40
Florida river restoration 4[7],18
need for sustainable environment 4[12]9
zebra mussel control 4[6],16

Education
and WEF 4[10],10
ASCE citizen awareness program 4[6],36
CSOs 4[3],30
environmental engineering in Armenia 4[10],30
landfill program 4[1],74
managing programs 4[8],51
Michigan pollution prevention center 4[8],33
state environmental spending declines 4[8],27
training businesses to protect water 4[2],16
training liability 4[1],17

Engineering
AAEE award winners 4[6],11
ASCE guide for quality construction 4[7],22
young environmental engineers 4[5],65

Environmental Protection Agency
1990 water quality report 4[5],38
database for innovative groundwater treatment 4[10],25
EPA position on water conservation 4[9],34
implementation of total quality management 4[7],25
Narragansett Bay water quality standards 4[3],22
regulating biosolids management practices 4[4],36
report on contaminated sediments 4[6],32
reuse guidelines updated 4[8],19
sludge rule delayed 4[10],38
states' rights to civil penalties 4[3],14
stormwater general permits 4[11],37
stormwater permit deadline 4[9],48
Superfund site designation overturned 4[8],20
uranium monitoring, water treatment plant 4[8],14

Environmental restoration
Guanabara Bay, Brazil, recovers 4[12],50
plant upgrade improves receiving water quality 4[12],32

Facility and design
controlling project budget and schedule 4[12],38
treatment plant upgrade preserves environment 4[9],15

Great Lakes
ranking toxics 4[7],50
water quality management 4[4],54

Groundwater
advanced oxidation for gasoline contamination 4[4],61
aeration at Superfund site 4[7],15
aquifer storage recovery catches on 4[11],12
arsenic and selenium removal from fly ash leachate 4[7],30
California water model 4[2],34
database for innovative treatment 4[10],25
dioxin treatment and disposal 4[4],58
EPA 1990 water quality report 4[5],38
hydraulic fracturing for *in situ* remediation 4[12],11
installation of leachate recovery wells 4[5],26
leachate disposal at landfill 4[9],18
metals removal from acid mine drainage 4[7],26
model predicts TCE soil contamination 4[11],33
protective legislation 4[2],70
remediation at Superfund site 4[7],12
state legislation and regulation review 4[10],51
water quality 4[7],36

Hazardous waste
activated carbon regeneration 4[2],32
advanced oxidation treats groundwater 4[4],61
bioremediation potentials and pitfalls 4[2],52
Canada cleans up acid spill 4[7],56
dioxin treatment and disposal 4[4],58
EPA treatment method database 4[4],33
hazardous waste acquisition 4[5],32
metals removal from acid mine

drainage 4[7],26
model predicts TCE soil contamination 4[11],33
nuclear weapons complex cleanup 4[8],20
PCB bioremediation technique 4[2],32
PCB polluters to fund Santa Monica Bay cleanup 4[4],22
remediation of PCB-contaminated land 4[1],28
soil and groundwater remediation at Superfund site 4[7],12
Superfund site designation overturned 4[8],20
Superfund site groundwater aeration 4[7],15
Superfund site revegetation 4[7],9
TCE bioremediation in groundwater 4[2],48
urban waterway cleanup campaign 4[8],29
vitrifying radioactive wastes 4[3],36

Industrial pretreatment and wastes
anaerobic filtration 4[6],66
chrome recovery in India 4[1],60
constructed wetlands clean effluent 4[11],52
corporate views on environment protection 4[6],51
data management 4[6],28
destroying dimethylnitrosamine 4[10],67
developing discharge limits 4[6],56
dewatering and incinerating solids 4[10],62
hospital mercury reduction in Japan 4[5],70
metals recovery process for electroplating 4[11],21
microfiltration for metals reduction 4[11],25
nitrogen supplement for wastewater treatment 4[7],32
pretreatment program evaluation 4[11],58
removing arsenic 4[11],54
respirometry application 4[6],60
setting ammonia standards 4[11],62
soap plant wastewater and stormwater reuse 4[2],9

Information systems
software for environmental assessment 4[11],11

Innovative technology
automated biosolids composting 4[5],28
bioremediation potentials and pitfalls 4[2],52
installation of leachate recovery wells 4[5],26
TCE bioremediation in groundwater 4[2],48

International
Baltic Sea protection program 4[6],24
Britain's environmental policy 4[12],21
Canada's Green Plan anniversary 4[2],26
Canadian policy on wetland conservation 4[11],30
cholera epidemic in Peru 4[1],35
chrome recovery in India 4[1],60
